Abstract
This deliverable intends to present an overview of the dissemination and communication activities performed during the first 18 months of the project. The report lists the communication tools the consortium created and used to achieve communication objectives agreed at the beginning of the project in a dedicated strategy. It is also a state of play of communication activities implemented so far by the partners in order to ensure a good dissemination and communication of GALATEA project.
The present document <i>D4.2 -Intermediary Communication activities report</i> is the fifth deliverable of Work Package 4 Project dissemination and communication.
It has been realised in the middle of the project (Month 18).

**DISCLAIMER**

The content of this deliverable represents the views of the GALATEA Consortium only and is its sole responsibility; it cannot be considered to reflect the views of the European Commission and/or the European Innovation Council and SMEs Executive Agency (EISMEA) or any other body of the European Union. The European Commission and the Agency do not accept any responsibility for use that may be made of the information it contains.

## 1. Background and context

### 1.1. THE PROJECT IN A NUTSHELL

**GALATEA**, which stands for “Grow and AcceLerate your smArt projecTs in nEW value chAins of the European Blue Economy”, is a continuation of the successful INNOSUP-1 project “NEPTUNE, the Blue Growth Accelerator”, that ended in December 2018.

GALATEA brings together the cooperation and experiences of 7 ICT, aerospace, water technologies and maritime clusters and 1 research and technology organisation from 5 European countries: France, Greece, Romania, Poland and Spain. It started in June 2020 and will run for 36 months.

GALATEA project aims at developing new cross-sectoral and cross-borders value chains supporting innovative SMEs to foster the development of Blue Growth key industries in Europe. This development will be driven by the integration of technologies and know-how from aerospace and ICT sectors to the following domains: ports, ships, shipyards and maritime surveillance.

To reach this objective GALATEA will implement a three steps methodology:

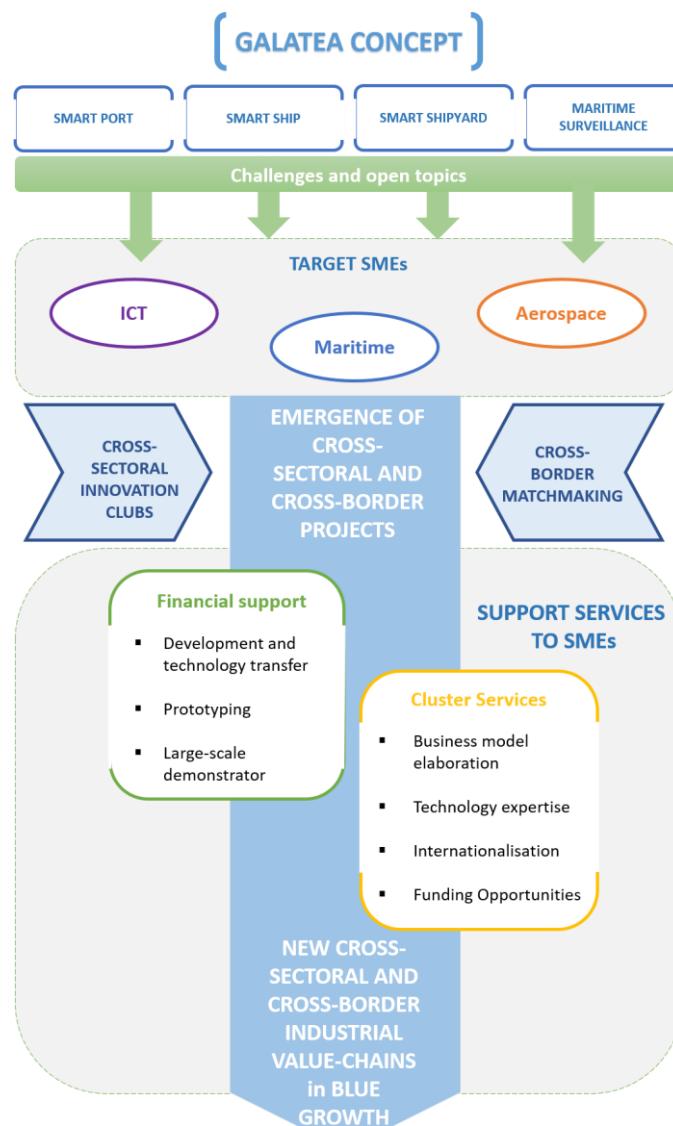

Figure 1: GALATEA concept

- 1) **Emergence of challenges**, based on the identification of customers' needs and societal challenges at stake related to Smart Port, Smart Ship, Smart Shipyard and Maritime Surveillance.
- 2) **Emergence of ideas**, facilitated by the implementation of various digital tools giving the opportunity to organise remote networking sessions between European SMEs.
- 3) **Innovation support and services**, with two calls for proposals that will be launched, providing to beneficiaries' financial support and services for the implementation of their innovation activities. SMEs will be awarded for a maximum grant of 60,000 €.

## 1.2. COMMUNICATION AND DISSEMINATION

### 1.2.1. Work Package overview

In order to ensure a systematic dissemination and promotion of the project's activities among all the stakeholders, Work Package 4 is dedicated to *Awareness raising and dissemination*. WP4 is led by MLC-ITS. All the consortium members made significant contributions to its full and effective implementation.

In total, **15.90 man-months** will be dedicated to communication and dissemination activities all over the project.

Participant number	1	2	3	4	5	6	7	8
Short name of participant	PMM-TVT	AV	CORALLIA	MLC-ITS	EURECAT	CWP	CLUJ IT	BSSC
Person/months per participant	1.00	1.00	1.00	8.90	1.00	1.00	1.00	1.00

*Table 1: Person/Months per partner*

Five specific tasks are devoted to this WP:

- T4.1 – Communication and dissemination strategy
- T4.2 – Monitoring
- T4.3 – Communication and dissemination materials
- T4.4 – Communication and dissemination activities
- T4.5 – Exploitation and Capitalisation

### 1.2.2. Monitoring of communication activities

In order to ensure the quality and high degree of effectiveness of the dissemination activities, regular monitoring of the progress is needed to evaluate what has been accomplished and what is still to be done.

Monthly meetings (remotely) are organised where communication activities are discussed. Additionally, regular phone calls and email exchanges occurred between the WP leader, the coordinators and the partners during this period.

GALATEA partners have reported on a monthly basis to MLC-ITS any communication and dissemination activities they have been doing on their own using the communication materials provided by MLC-ITS.

## 2. Communication and dissemination tools

Communication and dissemination activities require to develop specific tools. MLC-ITS, with the help of GALATEA partners, has designed and created a project website, communication materials and develops a social media campaign.

### 2.1. WEBSITE

The website is online since July 31<sup>st</sup> 2020, at the following address: <https://glateaproject.eu/>. The website is the project's showcase for a broad audience to get information and updates, especially about the support activities dedicated to SMEs.

Figure 2: GALATEA's website screenshot

### 2.2. COMMUNICATION MATERIALS

In order for each partner to promote the project, WP4 leader has created some communication materials to be spread by the consortium. All of the listed materials are downloadable from the website.

#### 2.2.1. Project branding and visual material

The GALATEA branding was designed in order to maintain graphical coherence in all the publications produced within the project. It contains all the basic rules on the use of graphics which constitute the GALATEA visual identity.

- **The logo:** its colours, its positioning, its proportions, its variations on white and coloured backgrounds, etc;

- **The fonts used;**
- **The various colours palettes** for different information materials;
- **The templates** for deliverables, project presentations, press releases etc. (Word; PowerPoint). They were prepared and distributed to all partners for their project official deliverables, as well as for their presentations during public meetings, conferences and events. The same templates are used for internal coordination meetings.

The figure displays three project templates for GALATEA:

- Flyer:** A one-page document with the GALATEA logo at the top. It includes project details: acronym GALATEA, title "Grow and Accelerate your smart projectZ in aNew value chains of the European Blue Economy", and Grant Agreement #9370326. Below this, sections detail the Project Branding Pack (with sub-sections for D4.3.1 and Actual delivery date 17/09/2020), the organization of lead participant (MLC-ITS Euskal), and dissemination level (Public). A funding acknowledgment from the European Union's Horizon 2020 research and innovation programme is also present.
- Roll-up:** A large, vertical template featuring the GALATEA logo at the top. The middle section is titled "GALATEA supports SMEs innovative projects in the Blue Growth Economy". It describes the project's mission to support cross-sectoral and cross-border industrial value chains for key industries in Europe. The bottom section outlines the project's main objective: "Development of new cross-sectoral and cross-border industrial value-chains integrating technologies and know-how from aerospace and ICT communities to key Blue Growth domains".
- Main Objective Page:** A template for the "MAIN OBJECTIVE" section. It features the GALATEA logo at the top right. The left column is titled "MAIN GENERAL OBJECTIVE" and describes the development of cross-sectoral and cross-border industrial value-chains. The right column is titled "MAIN DOMAINS" and lists four main domains: Smart Port, Smart Ship, Smart Shipyard, and Maritime Surveillance. Logos for various partners like INNOVIA, BSCC, CLUJ, CORALLA, CWP, eureca!, and POLIMER are shown at the bottom.

Figure 3: GALATEA project templates

## 2.2.2. Flyer and Roll-up

The flyer and roll-up were designed by MLC-ITS (please see Annex 1.1 and 1.2). These materials contain overall information as a brief description of GALATEA, its objectives and partners. They are distributed at events attended by the consortium partners and shared with the people met in order to increase the project's visibility and expand the network of contacts. These documents can be easily updated when needed for specific events and/or for different target groups.

The final number of hard copies will depend on the events at which they will be available. There is also a possibility to download them from the website.

### **2.2.3. E-Newsletters**

The first E-Newsletter was published at M9 (please see Annex 2). The aim of this first edition was to present GALATEA project to the readers. The following information was included:

- The challenges identified thanks to the collaborative work done with end-users;
- The Innovation Clubs & B2B meetings held in January and February 2021 in preparation for the Call for Vouchers #1;
- Information about the Call for Vouchers #1 and Call for Services.

The second E-Newsletter was published at M13 (please see Annex 2). The aim of this second edition was to present the results of the Call for Vouchers #1 and highlight the projects funded by GALATEA.

The E-newsletters were shared at local level by each partner in their regions/countries through their networks of stakeholders interested to get the latest information about the project. In addition, these were distributed to all participants of the ICs and B2B meetings and to everyone who applied to the Call for Vouchers #1, published on the project website and pushed through the social media.

See full GALATEA E-Newsletter #1 and GALATEA E-Newsletter #2 on the project website ([here](#)).

Another 3 E-Newsletters are planned to be published until the end of the project.

### **2.2.4. Press Releases**

Four press releases have been published since the beginning of the project. The first one, from July 2020, presented the GALATEA project as a whole. The second one, published in December 2020, presented the GALATEA challenges and announced the 1st Innovation Clubs and B2B Matchmaking Event. The third one, released in February 2021, announced the launch of the 1st GALATEA Call for Vouchers and Services. The fourth one, published in May 2021, described the main results of the 1stOpen Call for vouchers.

Each press release has been sent by each partner to local or national press and spread by various means of communications, such as internal websites, mailings and social media. These press releases are also available on GALATEA website and European Cluster Collaboration Platform.

See in Annex 3 the four press releases.

Figure 4: Press releases of the first 18 months

Another 2 Press Releases are planned to be published until the end of the project.

### 2.3. SOCIAL MEDIA CAMPAIGNS

In order to be visible and attractive, GALATEA project has to be active and known on social media. Two channels have been chosen to show and share the project's activities: Twitter and LinkedIn. These channels are of key importance to share catching messages for rapid dissemination purposes. They also allow a virtual dialogue with relevant stakeholders, including relevant project/initiatives (e.g., European Cluster Collaboration Platform, Directorate Generals of the European Commission or Executive Agency linked with the project objectives and topics such as EISMEA, DG MARE, etc.).

#### 2.3.1. Twitter

A Twitter account **@galatea\_project** was created for the GALATEA project and launched in July 2020. The direct link to this account is: [https://twitter.com/galatea\\_project](https://twitter.com/galatea_project)

Until November 2021, **121 Tweets** (own and retweets) have been posted, generating **281 retweets and 490 likes**, and the account has so far attracted **127 followers**.

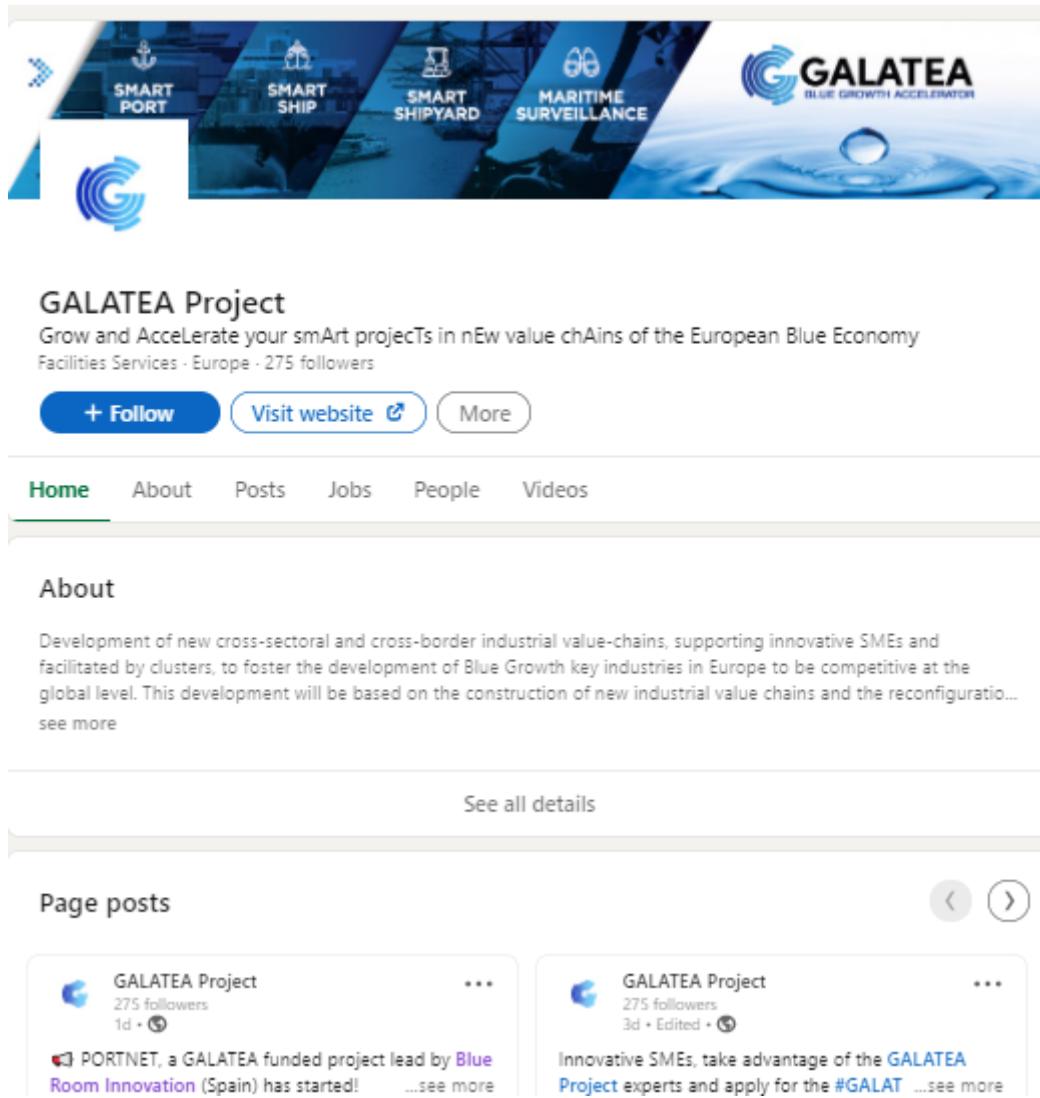

Figure 5: GALATEA Twitter account

### 2.3.2. LinkedIn account

A LinkedIn personal account was created for the GALATEA project and launched in July 2020. The direct link to this account is: <https://www.linkedin.com/company/galatea-project/>

Until today, **124 posts** have been posted, generating **156 shares and 928 reactions**, and the account has so far **332 followers**.

### 3. Communication and dissemination activities

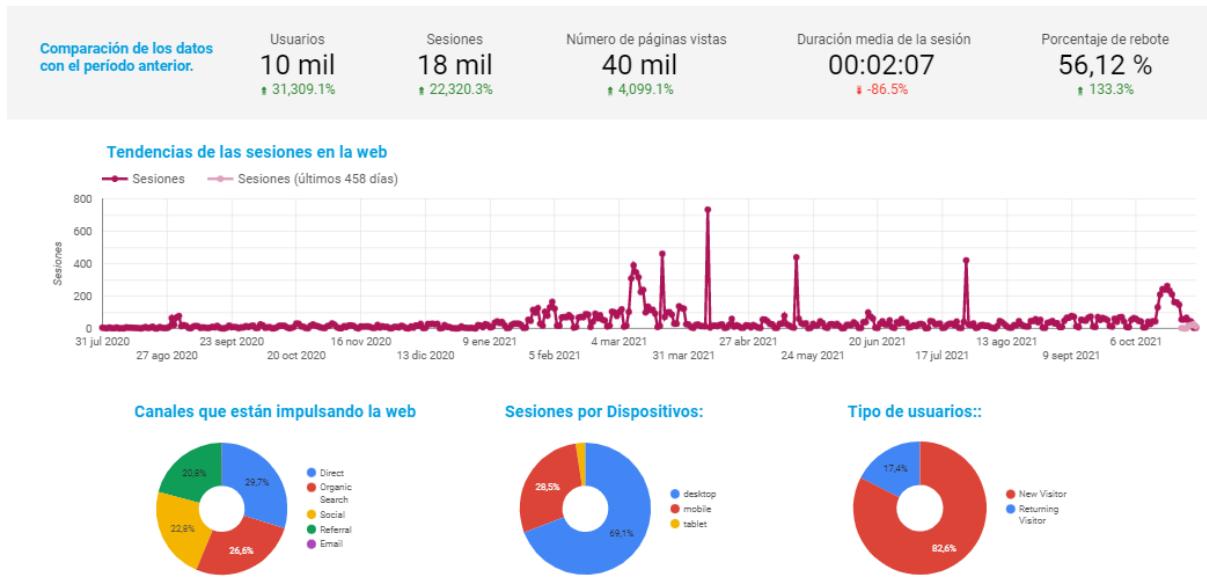

#### 3.1. WEB ACTIVITIES

GALATEA website is animated by MLC-ITS, with contributions of all partners. It has been designed as a showcase of the project and needs to be relevant to all GALATEA stakeholders, such as SMEs and would-be-entrepreneurs but also for all actors that have an interest in GALATEA (public authority, scientific community or large companies). It is updated on a regular basis, according to the project progresses.

The website presents:

- The different **activities** implemented within the project: challenge emergence, Open Calls, FAQ, etc;
- **Events** related to the project: Innovation Clubs and B2B meetings and promotional events;
- **External events:** local, national or European events on Blue Growth;
- Useful **information** for stakeholders.

The statistics show the strong activity on the website and there is a real interest on GALATEA from web users:

*Figure 7: Website overall statistics*

From July 2020 to November 2021 GALATEA website had **10.365 users**. These users have launched **17.712 sessions** on the website for a total of **39.975 pages viewed**.

Peaks of visits during March 2021 are explained in particular by the launch of the Call for Vouchers #1 which cut-off date was 31<sup>st</sup> March 2021. Indeed, all texts and information related to the call were available on the website, as well as the access to the online submission platform.

In addition, there were a few other peaks:

- The day the results of the first call were announced to the successful applicants;
- The day the supported project information was published on the website and the corresponding tweet and post were shared on the two social media accounts.

### 3.2. EXTERNAL EVENTS

GALATEA partners are responsible for promoting the project. Therefore, they all participate in events presenting the project and its opportunities to various public.

A few examples of the external events in which GALATEA partners participated or organised are:

- PMM-TVT presented GALATEA project in the Smart Port International Conference held at the University of Business and Administration in Gdynia (and online) in September 2020. This event was organised in cooperation with BSSC;
- MLC-ITS participated in a workshop organised by Biscay Bay StartUp Campus (BBSC) presenting GALATEA project together with the Port of Bilbao (September 2020) and attended B-venture event, the largest entrepreneurship event in the North of Spain, to present GALATEA project (October 2020);
- PMM-TVT presented GALATEA project in various events: MariMatch 2020 and Salon du Littoral et de la Mer 2020 in September 2020; Blue Tech week 2020, Smart Port and WestMED webinar of Maritime Clusters in November 2020; Blue Med Days event in July 2021;

- Cluj IT organised the Innovation Days Event in October 2020 and May 2021, where a booth was installed for GALATEA project. MLC-ITS, as WP4 leader, attended the event and interacted with the attendees that visited the GALATEA booth;
- CWP organised two webinars in November 2020 to present GALATEA project to some of their target partners interested in Blue Economy;
- AV organised a conference to present GALATEA project and its opportunities to the French-Basque Country ecosystem (January 2021);
- MLC-ITS organised a workshop with its SMEs to present GALATEA project and provide further information about the Innovation Clubs, B2B meetings and the application process (January 2021);
- CWP participated in the business event INVESTAGUA to present GALATEA project and its lines of action (April 2021);
- All partners participated in the Intermare South Baltic Exhibition organised by BSSC where PMM-TVT presented GALATEA project and each partner provided a brief description of its organisation (April 2021);
- CWP participated in the TCI Network Global Conference and presented the GALATEA project and the results of the first call of vouchers (September 2021);
- MLC-ITS participated in an event organised by CCI Bayonne Pays Basque and in a Cascade Funding Event organised by GAIN (Galician Innovation Agency) and presented the GALATEA project, its ICs and B2B meetings, the launch of Call for Vouchers #2 and the Call for services (September 2021);
- PMM-TVT participated in the “Strengthening cluster collaboration through strategic internationalisation” capacity building webinar and disseminated the GALATEA practices and tailored strategies to boost the internationalisation of SMEs (September 2021);
- CWP participated in the IV Congrès des Amics de l'Aigua and presented the results of the first call of FSTP and the launch of the 2<sup>nd</sup> Call for Vouchers (October 2021);
- EURECAT participated in a virtual workshop “Possibilities of joint project proposals (H2020)” and presented the GALATEA project (October 2021);
- CORALLIA hosted the event “Learning expeditions in Athens” of the GALACTICA Innosup-01 project, and GALATEA project was presented during the implementation of the workshop for potential synergies (November 2021).

The complete list of communication activities is available in Annex 4.

Figure 8: Pictures from some of the events where GALATEA partners participated

### 3.3. GALATEA EVENTS

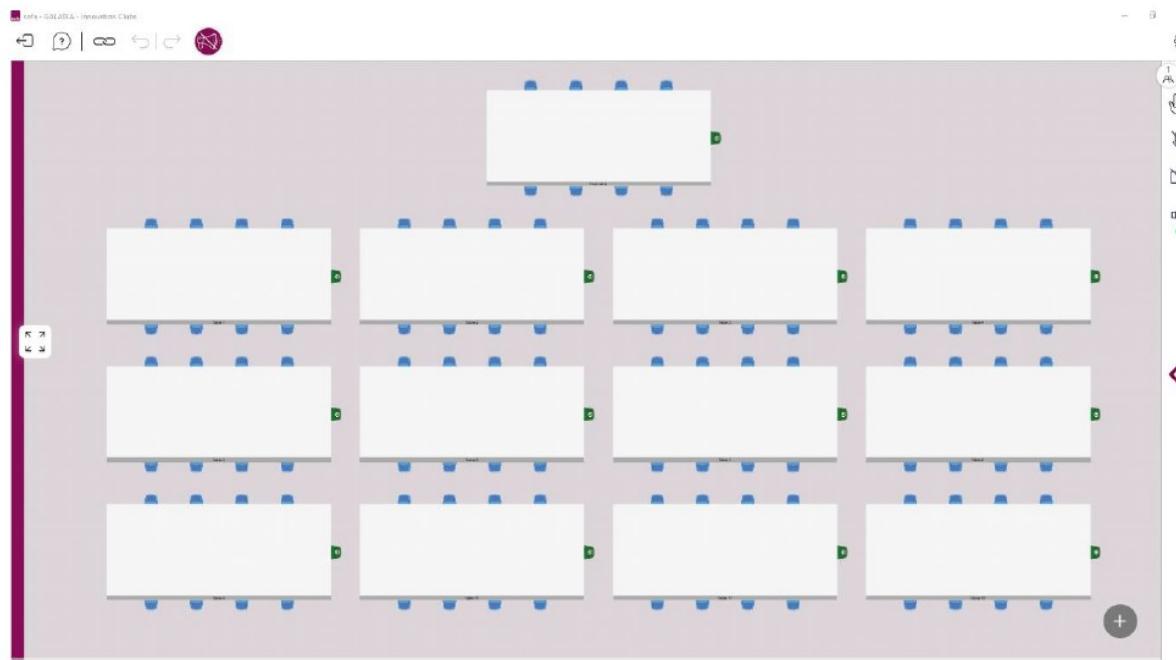

Within GALATEA, events and activities have been organised at local level and remotely.

#### 3.3.1. GALATEA Innovation Clubs

Two Innovation Clubs have been organised in the framework of GALATEA. These workshops would be defined as common places of reflexion around precise problematics and how to solve them, open to a particular type of actors. Innovation Clubs were designed to be addressed to SMEs in priority.

Given the transnational context of the project, coupled with the COVID-19 crisis's limitations, these events were organised online using the virtual collaboration software SOFA, developed by the French SME Tamaplace.

Four sessions (one per project key domain) on four half days were held before the launch of each Call for vouchers. Thematic tables were designated, one per challenge subdomain (digitalisation, environment, security, etc.), during each session in order to allow SMEs to attend the sessions corresponding to the solution they are providing.

*Figure 9: Illustration of the “SOFA Workshop” interface – full room view*

*Figure 10: Illustration of the “SOFA Workshop” interface – individual table view*

The 1<sup>st</sup> Innovation Clubs were organised on 19<sup>th</sup> and 21<sup>st</sup> January 2021, as follows:

- 19/01/21 - 09:00-11:30 CET: Innovation Club on Smart Ship
- 19/01/21 - 14:30-17:00 CET: Innovation Club on Smart Port
- 21/01/21 - 09:00-11:30 CET: Innovation Club on Smart Shipyard
- 21/01/21 - 14:30-17:00 CET: Innovation Club on Maritime Surveillance

The 1<sup>st</sup> edition gathered **53 participants** from the 5 European countries participating in the project.

The 2<sup>nd</sup> Innovation Clubs were organised on 13<sup>th</sup>, 14<sup>th</sup> and 16<sup>th</sup> September 2021, as follows:

- 13/09/21 - 09:00-11:30 CET: Innovation Club on Smart Ship
- 14/09/21 - 09:00-11:30 CET: Innovation Club on Smart Port
- 16/09/21 – 09:00-11:30 CET: Innovation Club on Smart Shipyard
- 16/09/21 – 14:30-17:00 CET: Innovation Club on Maritime Surveillance

The 2<sup>nd</sup> edition gathered **60 participants** from the 5 European countries participating in the project.

### **3.3.2. GALATEA Webinar**

In order to spread the information about GALATEA opportunities and to make the project visible, GALATEA consortium organised two webinars presenting the project as a whole, and more specifically the Innovation Support Mechanism (Open Call for vouchers and for services).

These events were online to increase the accessibility and the number of participants. The webinars took place on 5<sup>th</sup> February 2021 and 27<sup>th</sup> September 2021. On the 1<sup>st</sup> edition, **36 participants** were connected, and on the 2<sup>nd</sup> edition, **41 participants**.

### **3.3.3. B2B Matchmaking Events**

GALATEA B2B Matchmaking Event is an activity planned within the project in order to facilitate partnership agreements and potential joint applications to GALATEA calls. Using the B2Match platform, an online tool to arrange meetings between professionals, the GALATEA consortium organised two B2B Matchmaking Events.

The 1<sup>st</sup> B2B Matchmaking Event was organised on 5<sup>th</sup> February 2021 and gathered **122 participants for 126 meetings**. The 2<sup>nd</sup> B2B Matchmaking Event was on 27<sup>th</sup> September 2021 with **87 participants for 90 meetings**.

## **3.4. GALATEA PUBLIC RELATIONS**

GALATEA project needs to keep public relations in order to be visible enough and to make SMEs benefit of its opportunity. Press releases are a good way to spread GALATEA news and information. Partners are also involved in those public relations as they are communicating in various written press.

### **3.4.1. External communication**

GALATEA partners have been also communicating on the project outside our internal tools. 98 articles and news have been written and spread in order to inform all stakeholders on GALATEA project and opportunities.

A few examples of external communication:

- AV wrote an article presenting GALATEA and announcing the publication of the 1<sup>st</sup> press release on its own website (July 2020);
- PMM-TVT wrote an article to present GALATEA and announce its future launch on PMM's website (July 2020);
- BSSC published the article “GALATEA – Innovations in colour blue” on “GlosGdyni” Polish website, “Blue Economy” international website and on Magazyn Pomorski (July and November 2020);
- PMM-TVT wrote an article about their participation at MariMatch 2020 event where they presented GALATEA project on PMM's website (September 2020);
- BSSC published an article presenting GALATEA project, the Innovation Clubs and B2B meetings on GOSPODARKA MORSKA Polish website (January 2021);

- PMM-TVT wrote an article announcing GALATEA call for proposals on PMM's website (January 2021);
- PMM-TVT published an article presenting GALATEA in the French Association of Competitiveness Clusters (AFPC's) Newsletter of January 2021;
- AV wrote an article as a reminder of the deadline for the GALATEA call for vouchers application on its own website (February 2021);
- BSSC published an article in the "Blue Economy" international website about GALATEA - New Value Chains of the European Blue Economy (February 2021);
- PMM-TVT wrote an article on PMM's newsletter to present the launch of GALATEA's first newsletter (February 2021);
- PMM-TVT wrote an article to report on the Innovation Clubs and B2B events, their results and future actions on PMM's website (March 2021);
- BSSC interviewed Clémence Le Corff (PMM) and Diego Carballo (AV) about GALATEA project and this interview was published on the "Blue Economy" international website (April 2021) and Przeglad Pomorsky Polish website (June 2021);
- PMM-TVT wrote an article announcing GALATEA Call #1 results (April 2021) and announcing PMM-TVT members selected for GALATEA Call #1 (May 2021) on PMM's website;
- PMM-TVT wrote an article about GALATEA services, the opening of the call for services until September 2022 and the service delivered to the SME AzurIA on PMM's website (July 2021);
- PMM-TVT wrote an article about a funded SME member of PMM-TVT, explanation of their project and how GALATEA will help them achieve their goals on PMM's website (July 2021);
- BSSC published an article in the "Blue Economy" international website: "A zero-emission vessel production HUB and ICT & IT HUB were established (October 2021);
- PMM-TVT wrote an article about Innovation Clubs #2 and B2B matchmaking event #2 on PMM's website (October 2021).

The complete list of external communication activities is available in Annex 4.

### 3.5. EUROPEAN CLUSTER COLLABORATION PLATFORM

Financed by Innosup programme of the European Commission, GALATEA project is part of the cluster support policy of the EU. Therefore, the European Cluster Collaboration Platform (ECCP), as a clusters activity facilitator and provider of innovative tools for Clusters, supports GALATEA project and promotes its activities towards the European community of Clusters.

ECCP is a bridge between GALATEA and various stakeholders, such as other clusters, SMEs, public authorities or innovation support organisations.

**15 News and events** about GALATEA have been published in the ECCP website (<https://clustercollaboration.eu/content/grow-and-accelerate-your-smart-projects-new-value-chains-european-blue-economy>) since the beginning of the project. An article has been submitted to announce the launch of each Call (article about Call#1 on 28<sup>th</sup> January and article about Call#2 on 29<sup>th</sup> September). In addition, the press releases #2 and #4 and the e-newsletter #1 have been uploaded to the ECCP website.

## 4. Key performance indicators

As today, GALATEA has reached the following Key performance indicators (KPI).

The consortium is working to reach the objectives set by the end of the project.

Indicators	Measure	Achieved so far (M18)
Website	10.000 + visitors	10.365 visitors
E-newsletter	5	2
Social Media	<b>Twitter:</b> 350 followers <b>LinkedIn:</b> 150 followers	<b>Twitter:</b> 127 followers <b>LinkedIn:</b> 332 followers
Press Release	6	4
Events by GALATEA	15	11
Events by partners	10	6
Showcase Event	1	0
Video	1	0
Direct Interaction with stakeholders	200	119
Articles	20	98

*Table 2: Key performance indicators*

## 5. Conclusions

The objective of this deliverable was to present an overview of the dissemination and communication activities performed during the first 18 months of the project.

Dissemination and communication activities will also be performed in the following 18 months, until the end of the project, including:

- Continuous dissemination and communication activities of the project and Open Calls in the GALATEA website, social media (Twitter and LinkedIn) and ECCP website;
- Continuous update of the website with GALATEA news. Since July, a new section has been added with the description of the projects funded in the first call. This section will be updated to include the description of the projects funded in the second call, and the highlights on the funded projects will be the main focus of the website until the end of the project;
- Another 3 E-Newsletter are planned to be published until the end of the project;
- Another 2 Press Releases are planned to be published until the end of the project.
